RE: Locker Usage

Please note that for the remainder of this school year students are advised not to place anything of value in their lockers. This includes:

- Textbooks
- Electronics
- Clothing
- Anything else of value to the individual student

**NOTE: Property lost from student lockers will not be replaced for the remainder of the 2008-2009 school year**

Our lockers have shifted over the years and currently do not lock even with a lock on them. We unfortunately can not correct this immediately due to the disruption it will cause with instruction, but know that work will be done on them this summer.

Some suggestions include:

- Carrying only books for a given day, A or B
- Asking teachers if a book will be needed for the next class
- Not carrying non-school related items in ones backpack
- Do not leave backpacks unattended

We apologize for this inconvenience and will work with individual students and families as needed to find a personal solution.
